

CVA/DSS/008

16 March 2020

Dear Parents/Carers

At the time of writing this letter there is no indication that the school will be closing, however we are aware of several students and two members of staff that are “self-isolating” due to the potential infection of the Covid-19 virus, also known as Corona.

To assist all students who are absent and as a precaution against school closure we have developed learning packs for English, mathematics and science and we encourage all students to complete them.

At school we have an online learning program called www.MyMaths.co.uk. The log in details for the site are:

Username – phoenixgs

Password – numbers

Secondary students then have a secondary log on to record progress, but this is not necessary to use the site.

Another useful website is www.twinkl.co.uk. This website has many primary and secondary resources which are usually paid for, but are free for one month. To access these resources simply create a free account and use the code: UKTWINKLHELPS to access all materials.

To further assist you we have put together a list of free websites, below, that cover all subjects in school. Feel free to use these to promote learning or for ideas and tips to keep the students occupied whilst they are absent.

Yours faithfully

Chris Armond

EXECUTIVE HEADTEACHER
