Curiosity & Knowledge

English: Pupils will explore key features of traditional tales and then focus on diaries from Ancient Greece.

Reading: Pupils will read their reading books daily and we will bring Ancient Greece to life through engaging age-appropriate stories.

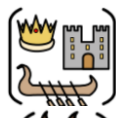

Maths: Pupils will develop their understanding of place value and the composition of numbers to 100.

Science: Pupils will learn about what animals need to survive in their different habitats.

Computing: Pupils will learn about Information Technology at home, school and around the world.

Geography: Pupils will learn about the composition of the world including its continents and oceans. They will look at the physical and human geographical features of Greece.

History: Pupils will develop their understanding of Ancient Greece including who the Gods were and where they lived. We will explore the Gods through artefacts and stories from Ancient Greece.

Art & Design: Pupils will develop their ability to use line and tone to add mood to our drawings. We will also look at pottery and how line can be added to create designs.

MFL: Pupils will develop their ability to hold a simple conversation in French including hello and goodbye.

RE: Pupils will learn about sacred objects and how they are special to all religions.

Technology: Pupils will develop the ability to design and make structures. They will also test and evaluate them based on specific criteria.

Music: Children will develop their understanding of music including finding the beat and pulse of songs.

PSHE: Pupils will learn how to build and maintain healthy relationships based on honesty, trust, and respect, and recognise positive and negative friendship behaviours.

Outdoor Education: Pupils will learn about how to play together and make decisions based on their preferences. They will learn about green spaces and how to play, protect and respect them.

PE: Pupils will learn about the key gymnastic movements through fun and engaging games.

Emotional Intelligence: Pupils will learn to recognize, understand, express, and regulate their own emotions and to perceive and respond appropriately to the emotions of others.

Citizenship: Pupils will learn staying safe online including recognising when other online sources are real or fake and how to get help when needed.

Get Time: Pupils will have the opportunity each week to work on their personal targets linked to being social, thinking about themselves in the world, being active, mindful and prepared.
