Text:

Stanley Yelnats has always believed his family is cursed. When he is wrongly accused of stealing a pair of trainers, he is sent to Camp Green Lake, a strange detention camp in the middle of a hot, dry desert.
Every day, Stanley and the other boys must dig a huge hole. The adults claim it is to "build character", but Stanley soon realises they are searching for something.
As Stanley uncovers the secrets of Camp Green Lake, he begins to discover the truth about his family's past, the mysterious curse, and why he was sent there in the first place.

Educational Visits

Christmas Pantomime

Southwell Workhouse

Curiosity & Knowledge

English: Pupil will explore Holes and develop writing skills through creating recounts, diary entries and reports, focusing on structure, vocabulary and key writing features.

Maths: Pupil will develop understanding of fractions and learn to convert between different units of measurement.

Science: Pupil will investigate mixtures and methods of separation, alongside exploring sexual reproduction and life cycles in animals.

Computing: Pupil will explore digital messaging, learning how to communicate safely, appropriately and responsibly using digital media.

Explore & Make

Geography: Pupil will explore the importance of conservation and how people can protect the environment, wildlife and natural resources.

History: Pupil will explore census data to investigate how their local area has changed over time and what it tells us about the people who live there.

Art & Design: Pupil will explore portraiture, developing skills in observing, drawing and representing facial features, expression and identity.

MFL: Pupil will explore French football champions, developing French vocabulary and phrases linked to football, teams and sporting achievements.

Music: Pupil will develop vocal skills through singing, exploring rhythm, pitch, expression and performing individually and as part of a group.

RE: Pupil will explore different beliefs about God, good, evil and suffering, considering how people develop their beliefs and decide who to trust.

Technology: Pupil will develop a recipe, learning to select ingredients, follow methods and apply practical food preparation skills.

Health & Me

PSHE: Pupil will explore health and wellbeing, mental health, resilience, kindness, online safety, personal hygiene, puberty and making healthy choices.

Outdoor Education: Pupils develop ice-skating skills through practical activities, focusing on balance, coordination, movement, confidence and safe participation.

PE: Pupils will develop core invasion game skills, including passing, moving into space, defending and teamwork, while learning to apply simple tactics during games.

Emotional Intelligence: Pupil will develop strategies to recognise, understand and manage internal emotions and reactions.

Citizenship: Pupil will learn about online reputation, cyberbullying and managing personal information safely and responsibly online.
